

OFFICIAL DECREE

The New World Order Council hereby declares the following appointments:

The Amerimutt Question

On 27th of December 2024 an executive decision was made to impose a limit on the amount of country representatives for each country. This decision was made in response to the recent Amerimutt immigration crisis and the subsequent Amerimutt Question incident.

Additionally, every non-representative will receive an indentured servitude contract with no deadline, effectively enslaving them indefinitely. The only way to terminate this contract is by fighting for the representative position by being a quality community member and posting gems; new representatives will be chosen by the NWO council at their leisure.
